CSA NOTICE AND REQUEST FOR COMMENT

MODERNIZATION OF SCHOLARSHIP PLAN REGULATION PHASE 1 – A NEW PROSPECTUS FORM FOR SCHOLARSHIP PLANS

PROPOSED AMENDMENTS TO NATIONAL INSTRUMENT 41 - 101 *GENERAL PROSPECTUS REQUIREMENTS*, FORM 41-101F2 AND RELATED AMENDMENTS

Introduction

We, the members of the Canadian Securities Administrators (the CSA), are publishing for a comment period of 90 days proposed amendments to National Instrument 41-101 *General Prospectus Requirements* (the Proposed Rule) and Form 41-101F2 *Information Required in an Investment Fund Prospectus* (the Form). New Form 41-101F3 *Information Required in a Scholarship Plan Prospectus* is part of the Proposed Rule. We refer to the Proposed Rule and the Form as the Instrument.

This Instrument, together with the related amendments, sets out the first phase of the CSA's approach to modernize the securities regulation of scholarship plans, by providing investors with more meaningful and effective prospectus disclosure.

This is an important investor-focused initiative. The number of investors, particularly investors with low to modest incomes, in scholarship plans has grown substantially since 1998 when the Government of Canada actively began encouraging saving for post-secondary education through the Canada Education Savings Grant (CESG). The Government of Canada later added the Canada Learning Bond (CLB) in 2004. Two provincial governments added their own incentive programs, the Alberta Centennial Education Savings Plan (ACES) and the Quebec Education Savings Incentive (QESI), in 2005 and 2007 respectively. The aggregate value of assets held in scholarship plans has grown from \$1.9 billion in 1998 to \$7.6 billion as of December, 2008¹. This represents 33.6% of all the assets currently held in Registered Education Savings Plans (RESPs).

We know that many investors have trouble understanding the unique features and complexity of scholarship plans. This was one of the key findings in the recent report prepared for the department

¹ HRSDC: Canada Education Savings Program. Annual Statistical Review, December 2008.

of Human Resources and Skills Development Canada (HRSDC)² on RESP industry practices (the Federal Report), which identified the need for clearer and simpler prospectus disclosure.

Having a new prospectus form tailored for scholarship plans will provide investors with the opportunity to make more informed investment decisions because it will give them key information about a scholarship plan in language they can better understand. Central to the new prospectus form is the Plan Summary document. It is in plain language, will generally be no more than three pages and highlights the potential benefits, risks and the costs of investing in a scholarship plan. It will form part of the prospectus, but will be bound separately.

As a second phase of the CSA's initiative, we intend to reformulate National Policy 15 *Conditions Precedent to Acceptance of Scholarship or Educational Plan Prospectuses* (NP 15) by replacing it with a new operational rule for scholarship plans. During this phase, we will consider issues such as the investment restrictions for scholarship plans, fees, the calculation and disclosure of performance data, sales communications and actuarial certification.

We are carrying out the first two phases of this policy initiative concurrently, but with implementation in stages, depending on the advancement of each phase. As a third and final phase, we will consider the issue of SRO membership for scholarship plan dealers and salespersons.

The proposed amendments to the Instrument are set out in Appendix B.

Background

Description of scholarship plans

Scholarship plans are eligible for registration with the Canada Revenue Agency as an RESP. This allows scholarship plans to be eligible for both Government of Canada and some provincial grants.

Like other RESP products, the objective of a scholarship plan is to fund post-secondary education by investing money contributed by investors (typically called subscribers) to generate income for designated beneficiaries. The maturity date specified for the plan is usually during the year when the beneficiary turns 18 and is expected to enrol in a post-secondary education program. At maturity, the net amount contributed is returned to the subscriber, and the net income earned on the contributions is paid to the beneficiary as 'education assistance payments' (EAPs). Any government grants or incentives received on behalf of the beneficiary and any income earned on those monies are paid to the beneficiary as part of the EAPs.

There are three types of scholarship plans, all of which are offered by prospectus: individual scholarship plans, family scholarship plans and group scholarship plans.

Group scholarship plans account for approximately 95% of the total assets under management of scholarship plans. A group scholarship plan pools the investment income of beneficiaries expected to enter a post-secondary education program in the same year. Subscribers sign up for one or more units of the plan, which provides for a share of the income available for distribution at maturity of

² *Review of Registered Education Savings Plan Industry Practices – Report prepared for Human Resources and Social Development Canada* prepared by Informetrica Limited, Final Report, released August 2008.

the plan. A key feature is that the investment income earned on the monies contributed by subscribers for beneficiaries who fail to qualify for payments from the plan is distributed to the beneficiaries who remain in the plan at maturity and qualify for EAPs.

A beneficiary may fail to qualify for EAPs if, for example:

- the subscriber withdraws from the plan;
- the plan is cancelled because the subscriber failed to make contributions on schedule, or failed to make catch-up payments, or to exercise other options available;
- the subscriber transfers the plan to another RESP provider; or
- the beneficiary decides not to pursue a post-secondary education or attend a qualifying education program.

A beneficiary may fail to receive the full value of their EAPs if they do not attend a qualifying education program for the full period required in their particular plan.

As indicated in the Federal Report, the ramifications for failing to qualify for scholarship payments are significant. While the principal contribution (net of fees) is returned to the subscriber, the subscriber loses the EAPs (which include all federal and provincial grant money received), any rebate of enrolment fees, any discretionary payments and the beneficiary's contribution room relating to lost grants.

The Federal Report observed that group scholarship plans have their own rules for awarding EAPs that are different and more restrictive than the Government of Canada's rules. The report also noted the significant pre-maturity attrition rates for group scholarship plans.

National compliance review

In 2003, CSA staff performed a national compliance review of scholarship plan dealers. The purpose of the review was to assess the compliance of scholarship plan dealers with applicable provincial securities legislation.³

Subsequent to this review, the Ontario Securities Commission (OSC) staff issued a report⁴ to provide guidance to scholarship plan dealers in complying with Ontario securities law. The report was based on the findings of the national compliance review and a focused follow-up compliance review conducted by OSC staff. The report identified a number of deficiencies in areas such as business practices, sales practices and disclosure practices, for example:

- inadequate disclosure or misrepresentation of fees;
- misleading marketing and exaggerated claims about zero risk;
- inadequate product knowledge by sales representatives;
- no consistent methodology for calculating rates of return (even for the same dealer firm), and
- high-pressure sales tactics, sometimes encouraged by firm training manuals.

³ The participating jurisdictions were British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, Quebec and Prince Edward Island.

⁴ *Industry Report on Scholarship Plan Dealers* by the Compliance Team, Capital Markets, Ontario Securities Commission, July, 2004.

The report noted that it was clear from the nature and volume of deficiencies found during the national compliance review and the focused follow-up reviews that more specific rules to regulate scholarship plans and dealers were required.

Ongoing staff reviews

As part of their ongoing regulatory oversight function, staff review the current business and disclosure practices of group scholarship plans. As a result of these reviews, staff have asked all group scholarship plans in the last few years to make changes in their prospectus disclosure at the time of their prospectus renewals. These changes included:

- improved disclaimers regarding the discretionary payments made with EAPs;
- removing any discretionary payments from the discussion of the rate of return;
- improved disclosure of the assumptions underlying the contribution schedule; and
- improved disclosure of the financial consequences of attrition (subscribers who withdraw from the plan or fail to qualify for EAPs).

These disclosure enhancements are codified in the Instrument.

The Federal report

The stated objective of the Federal Report was to review industry practices with respect to RESPs to identify policies, practices and contractual arrangements that may impede, deter or harm an individual's ability to save and access funds for a child's education after high school. The report made a number of observations related to the prospectus disclosure of scholarship plans, including:

- Current prospectuses are lengthy and difficult to understand. One reason for this is that there is so much information to convey. The full details of the scholarship plan are not always set out in the best order and in clear, simple language;
- Group scholarship plans are complex. In order to understand all of the risks and rewards of a group scholarship plan or to choose among plans, a considerable amount of time is needed. There is also a risk that investors do not fully understand what they have signed up for;
- Scholarship plan prospectuses do describe the rules of group scholarship plans, and the various possible outcomes, but this information is difficult to find; and
- Saving for education through RESPs is one of many saving options available to consumers. It is vital that investors have good information that enables them to make choices that are in their best interest. Investors will benefit from simple, clear information in plain language.

You can find the Federal Report on the website of HRSDC at www.hrsdc.gc.ca.

The current prospectus regime

Disclosure requirements for scholarship plan prospectuses are found in National Instrument 41-101 *General Prospectus Requirements* and Form 41-101F2 *Information required in an Investment Fund Prospectus* (the Investment Fund Prospectus Form), which came into force in March 2008. It introduced a new prospectus disclosure form for all investment funds other than those that file a simplified prospectus under National Instrument 81-101 *Mutual Fund Prospectus Disclosure*.

Before the Investment Fund Prospectus Form came into force, scholarship plans used Form 15 of the *Securities Act (Ontario) Information Required in a Prospectus of a Mutual Fund*, and the equivalent provision in Quebec, Regulation Q-28 *Respecting General Prospectus Requirement*, both of which are mutual fund forms, as a guide for making full, true and plain prospectus disclosure.

While generally better than its predecessor, the Investment Fund Prospectus Form still has many aspects that are not applicable or relevant to scholarship plans. There are also unique features of scholarship plans that while generally disclosed, are not disclosed in a consistent manner. This makes it difficult for investors to understand the possible outcomes and risks associated with scholarship plans, particularly group scholarship plans.

As a result, the prospectus disclosure for scholarship plans does not provide as meaningful or effective disclosure as it could for investors. This is illustrated by the number of complaints securities regulators, HRSDC and other government agencies continue to receive about scholarship plans, particularly group scholarship plans. The majority of complaints illustrate a general lack of investor understanding of the product. They often relate to causes of forfeiture, fees and the operation of group scholarship plans.

Purpose and Summary

Purpose of the Instrument

The Instrument proposes to address the shortcomings of the current disclosure regime for scholarship plans by focusing on providing investors with key information about a scholarship plan and providing the information in a simple, accessible and comparable format.

Scholarship plans disclose a great deal of information to investors through the prospectus, the financial statements and the contract agreements. While these documents are intended to provide critical information to investors who are considering whether to buy a scholarship plan, we know that many investors have trouble finding and understanding key information because these documents tend to be long and complex. Investors also find it difficult to compare information about different scholarship plans.

Further, we know that for some of these investors, a scholarship plan is the only security they will ever purchase. Many of these investors have little to no financial literacy. In some instances, they may not speak or understand English or French as a first language, making the information in the prospectus even more difficult for them to access.

We are proposing a new disclosure form tailored to scholarship plans that will allow securities regulators to address these investor issues and to codify some of the prospectus disclosure that is currently requested during the prospectus review and renewal process. We have attempted to organize the format and content of the prospectus from the perspective of the investor who is considering purchasing a scholarship plan, in order to make the document more understandable, accessible and readable.

Where appropriate, we have considered the content and approach to the mutual fund simplified prospectus and annual information forms, as well as the Fund Facts document proposed under the CSA point of sale initiative for mutual funds.⁵

We expect the Instrument and related amendments to benefit investors by providing them with disclosure that gives them a simpler, clearer understanding of the potential benefits, risks and costs of investing in a scholarship plan, and allows them to meaningfully compare one scholarship plan to another. By making disclosure more effective, we are giving investors the opportunity to make more informed decisions. We are also enhancing transparency in the marketplace.

Summary of the Instrument

Application

The Instrument and related amendments apply only to scholarship plans subject to National Instrument 41-101 *General Prospectus Requirements*.

Plan summary

The Plan Summary document set out in new Form 41-101F3 is central to the Instrument. It must be bound separately from the rest of the prospectus.

It is written in plain language, generally fits on three pages and highlights key information that is important to investors, including the key risks and the costs of investing in a scholarship plan. It is designed using a question-and-answer format that makes it easier for investors to find information. It also contains a number of statements that we think will help investors understand the risks of investing in a scholarship plan. We think putting this information at the front of the prospectus form will provide investors with the opportunity to make a more informed investment decision.

To promote comparability and simplicity, many aspects of the Plan Summary document are prescribed, but it is also sufficiently flexible to accommodate different types of scholarship plans.

You will find a sample of the Plan Summary document at Appendix A.

Prospectus form

The prospectus form mandates specific headings and subheadings so that the information in the prospectus is shown in an order that we think is more meaningful and effective for investors. The table of contents is intended to act as a quick guide to what happens during the life of the product and what investors have to do.

The proposed prospectus form consists of four parts:

- Part A is the plan summary.
- Part B describes the features common to all the scholarship plans offered under the prospectus.
- Part C provides plan-specific information. A separate Part C will be required for each plan, or class of plan offered under the prospectus.

⁵ *CSA Notice and Request for Comment: Implementation of Point of Sale Disclosure for Mutual Funds*, published for comment June 19, 2009.

- Part D provides information about the organization and management of the scholarship plan(s), as well as the appendices, such as the contribution schedule, and certifications.

The Instrument precludes from the new prospectus form much of the general information about government grant and incentive programs currently found in the prospectus. We think this disclosure has significantly contributed to the large size of the prospectus and that it has been a source of confusion for investors, who may think that the scholarship plan is a government product. By limiting the disclosure in the prospectus to the aspects of RESPs that are relevant to investing in a particular scholarship plan, we are making the disclosure comparable to other investment products.

The Instrument will also preclude from the new prospectus form disclosure related to personal insurance products that a scholarship plan issuer may be selling, again making the disclosure comparable to other investment products.

Incorporation by reference

The Instrument now permits the incorporation by reference into the prospectus of the most recently filed annual financial statements, any interim financial statements filed after the annual financial statements and the most recently filed annual management reports of fund performance. We have made this change because we have moved the key information from these continuous disclosure documents into the new prospectus form.

Delivery

The Instrument contemplates delivery of the prospectus, which consists of the Plan Summary document and the remaining parts of the prospectus. Delivery must occur as currently required under applicable securities legislation, which is within two days of the purchase. We understand that the current practice for delivering the scholarship plan prospectus is before or at the point of sale. Accordingly, the Instrument does not currently contemplate mandating point of sale delivery of the prospectus. However, we may revisit the delivery requirement if warranted.

Alternatives Considered

An alternative to the Instrument would be not to create a tailored prospectus form for scholarship plans and to continue to raise disclosure issues at the time of prospectus renewals on a case-by-case basis. We believe that the status quo is not an acceptable alternative because the existing prospectus for scholarship plans is not assisting investors in making an informed investment decision.

Anticipated Costs and Benefits

We think the disclosure regime set out in the Instrument will benefit both investors and the capital markets by helping address the “information asymmetry” that exists between participants in the scholarship plan industry and investors. Unlike industry participants, investors often do not have an understanding of key information about a scholarship plan before they make their investment decision and may have difficulty sorting through the information they receive. Providing more effective disclosure will help bridge this information gap.

However, the extent to which investors and the scholarship plan industry will be affected in terms of benefits and costs is difficult to quantify.

Benefits

The benefits of a more effective disclosure regime can be subtle and difficult to measure. For example, it can be a challenge to quantify the value of investors having the opportunity to make more informed investment decisions.

Some anticipated benefits of a more effective disclosure regime for scholarship plans include:

- less risk of investors buying inappropriate products or not fully benefitting from the advice services they pay for;
- investors being in a position to better understand and compare scholarship plans, particularly the costs of investing in the scholarship plans, as well as determining whether another investment product is more suited to their needs;
- greater transparency in areas such as charges or commissions, which may enhance the overall efficiency of the market;
- increased comparability and ease of readability for investors; and
- greater use of the prospectus as a reference tool by investors throughout the life of this long-term investment.

Costs

We think the costs of a new disclosure regime fall into two main categories: the one-time costs of moving to the new disclosure regime and the ongoing costs of maintaining the new regime in comparison with the cost of the existing disclosure regime.

We anticipate that costs to industry stakeholders will fall into the following general categories:

- preparation of the new prospectus form; and
- regulatory filings.

Overall, we believe the potential benefits of the changes to the disclosure regime for scholarship plans are proportionate to the costs of making them.

Related Amendments

Local Rule Amendments

If necessary, we propose to amend elements of local securities legislation, in conjunction with the implementation of the Instrument. The provincial and territorial securities regulatory authorities may publish these proposed local changes separately in their jurisdictions. These local changes may be to rules or to statutes. If statutory amendments are necessary in a jurisdiction, these changes will be initiated and published by the local provincial government.

Proposed consequential amendments to rules or regulations in a particular jurisdiction or publication requirements of a particular jurisdiction are in Appendix C to this Notice published in that particular jurisdiction.

Some jurisdictions may need to modify the application of the Instrument using a local implementing rule. Jurisdictions that must do so will separately publish the implementing rule.

Unpublished Materials

In developing the Instrument and related amendments, we have not relied on any significant unpublished study, report or other written materials.

Request for Comments

We would like your input on the Instrument and related amendments. To allow for sufficient review, we are providing you with 90 days to comment.

We are seeking specific feedback on the following questions. We also welcome your comments on any other aspects of the Instrument, including our general approach.

1. We are considering requiring the detailed disclosure set out in the prospectus form under Part C- Plan Specific Information for unregistered education savings accounts. These accounts currently have various names, such as escrow accounts or advance deposit accounts. In our view, these accounts appear to be securities because they evidence the investment contract.

Do you agree with this approach? If not, how should these accounts be disclosed and why?

2. To make the prospectus document shorter and more accessible for investors, we are considering allowing Part D – Information about the Organization, of the prospectus form to be made available on request. This is similar to the annual information form for conventional mutual funds. Do you agree or disagree with this approach? Why?
3. We are considering requiring additional disclosure in the prospectus form about the trustee of the scholarship plan, including information about the trustee's policies on business practices and conflicts of interest, proxy voting and particulars of existing or potential conflicts of interest related to the scholarship plan. Do you agree or disagree with this approach? Why?

All comments will be posted on the OSC website at www.osc.gov.on.ca. We cannot keep submissions confidential because securities legislation in certain provinces requires publication of a summary of the written comments received during the comment period.

Thank you in advance for your comments.

Your comments must be submitted in writing by **June 22, 2010**.

APPENDIX A

SAMPLE PLAN SUMMARY DOCUMENT

Plan summary

ABC Group Education Scholarship Plan

Investment Fund Manager : ABC Scholarship Trust Foundation

November x , 2010

This summary tells you some key things about investing in the plan. It may not contain all the information you want. You should read the entire prospectus carefully before you decide to invest.

If you change your mind

You have up to 60 days after signing your contract to cancel your plan and get back all of your money.

If you (or we) cancel your plan after 60 days, you'll get back your contributions, less sales charges and fees. You will lose your earnings. Your grants will be returned to the government. **Since you pay sales charges up front, you could end up with much less than what you put in.**

What is a group scholarship plan?

A scholarship plan is one of many ways to save for a child's education. Like most scholarship plans, the ABC Group Education Scholarship Plan is set up as a Registered Education Savings Plan (RESP). That means your money can grow without being taxed until it is withdrawn from the plan. The federal government and some provincial governments offer grants to help you save even more.

With a group scholarship plan, you are part of a group of investors. Everyone's money is invested together. When the plan matures, each child in the group shares in the earnings. Your share of the earnings plus your grants are paid to your child as education assistance payments (EAPs).

There are two main exceptions. Your child will not receive EAPs, and you will lose your earnings and grants if:

- your child does not enrol in a school or program that qualifies under the plan, or
- you drop out of the plan before it matures

If you drop out of the plan, your earnings go to the remaining members of the group. However, if you stay in the plan until it matures, you may benefit from the earnings of those who left the group early.

Who is this plan for?

This is a long-term investment plan. It is for investors:

- who can make all the scheduled contributions on time
- who can stay in the plan until it matures
- whose child will attend a qualifying school and program

If this doesn't describe you, you should consider another type of plan. For example, an individual or family plan has fewer restrictions. See pages • for details.

What does the plan invest in?

The plan invests mainly in fixed income securities, such as government treasury bills, guaranteed investment certificates, mortgages and bonds. Like other investments, the plan's investments have some risk. Returns will vary from year to year.

How do I make contributions?

You sign up for one or more "units" of the plan. These units are your share of the plan. You can pay for them all at once, or you can make annual or monthly contributions.

You can change the amount of your contribution as long as you make the minimum contribution. You can also change your contribution schedule. A fee applies.

How do the payments work?

In your child's first year of college or university, you'll get back your contributions, less fees. You can have them paid to you or your child. This money is not taxed.

Your child will be eligible for EAPs in their second, third and fourth years. Your child must show proof they are enrolled in a qualifying school or program to get an EAP. EAPs are taxable income to your child. Since most students usually have little or no other income, they will likely pay little or no tax on their EAPs.

What are the risks?

If you do not meet the terms of the plan, you could lose some or all of your investment. Your child may not receive all of their EAPs. Your child's education could be affected.

You should be aware of five things that could result in a loss:

Drop-out rate

Over the past 10 years, an average of ●% of subscribers have left this plan each year. At this rate, ●% of subscribers will have left the plan over [insert the average length of plans held to maturity] years, the typical length of an investment in this plan.

1. You drop out of the plan before the maturity date. People drop out of the plan for many reasons. Most often, it's because their financial situation changes due to job loss, divorce or other life events. If you drop out after 60 days from signing your contract, you'll lose all or part of your contributions to sales charges and fees. You'll also lose the income earned on your investment, and your government grants contribution room.

2. You miss a contribution. If you want to stay in the plan, you'll have to make up the contribution. You'll also have to make up what your contribution would have earned if you had made it on time. This can be costly.

If you have difficulty making contributions, you can reduce or suspend your contributions, transfer to another RESP or close your plan. Restrictions and fees apply. Some options will result in a loss of earnings and grants. If you miss a contribution and don't take any action within 24 months, we may cancel your plan.

3. You or your child misses a deadline. This can limit your options later on. You could also lose the earnings on your investment. The two key deadlines for this plan are:

- **Maturity date for making changes**

You have until the maturity date to make changes to your plan. This includes switching a child, changing the maturity date if your child wants to start their program sooner or later than expected, and changing the type of plan you have. Restrictions and fees apply.

- **August 1 for EAPs**

If your child qualifies for an EAP, they must apply by August 1 before their second, third and fourth years of eligible studies if they want to receive a payment for that year. Otherwise, your child may lose this money.

4. Your child doesn't go to a qualifying school or program. For example, apprenticeships, part-time studies and co-operative studies are not allowed under this plan. You can name another child under the plan, transfer your plan to another RESP or close your plan. Restrictions and fees apply. Some options will result in a loss of earnings and grants.

5. Your child doesn't complete their program. Your child may lose some or all of their EAPs if they take time off from their studies, do not complete all required courses in a year or change programs. Your child may be able to defer an EAP for a year if they go back to a qualifying program. Deferrals are at our discretion.

Lost EAPs

To date, in ●% of plans matured and closed, beneficiaries did not collect all of their EAPs.

How much does it cost?

There are costs for joining and participating in a plan. The following tables show the fees and expenses of this plan.

Other fees

Other fees apply if you make changes to your plan. See page ● for details.

Fees deducted from your contributions

Fee	What you pay	What the fee is for
Sales charge	\$100 per unit	• This is a commission for selling you the plan. It is paid to your sales representative and the company they work for.

	<ul style="list-style-type: none"> • It's applied against your contributions until it's paid off. That means less of your money is invested during the early years of your plan.
Processing fee	<ul style="list-style-type: none"> • \$3.50 each year for a one-time contribution • \$6.50 each year for annual contributions • \$10 each year for monthly contributions <ul style="list-style-type: none"> • This is for processing a contribution.

Ongoing plan fees

You don't pay these fees directly. They're paid from the plan's earnings. These fees affect you because they reduce the plan's returns.

Fee	Amount deducted from the plan's value
Administrative fee	0.5% per year
Investment counsel fee	0.02 to 0.315 of 1% per year
Independent review committee fee	\$68,500 for 2008
Custodian fee	0.015 of 1% per year for the first \$300 million in assets, 0.010 of 1% on assets over \$300 million

If you invested \$2,500 last year, your share of these ongoing fees would have been \$18.50.

Are there any guarantees?

We cannot tell you in advance if your child will qualify to receive any payments from the plan or how much your child will receive. We do not guarantee the amount of any payments or that the payments will cover the full cost of your child's post-secondary education.

General Instructions

(1) This Form describes the disclosure required in a scholarship plan prospectus. Each Item of this Form outlines disclosure requirements. Instructions to help you provide this disclosure are printed in italic type.

(2) The objective of the prospectus is to provide information about the scholarship plan that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. This Form does not prohibit including information where certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.

(3) Terms defined in National Instrument 14-101 Definitions, National Instrument 41-101 General Prospectus Requirements, National Instrument 81-105 Mutual Fund Sales Practices, National Instrument 81-106 Investment Fund Continuous Disclosure or National Instrument 81-107 Independent Review Committee for Investment Funds and used in this Form have the

meanings that they have in those national instruments except that references in those definitions to “mutual fund” must be read as references to “investment fund”.

(4) The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101 CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included. Some terms common to the scholarship plan industry are provided in this Form and should be used.

(5) Respond as simply and directly as is reasonably possible. Include only the information necessary for a reasonable investor to understand the fundamental and particular characteristics of the scholarship plan.

(6) A prospectus must:

(a) present all information briefly and concisely in the order specified by the Form,

(b) use the headings and sub-headings stipulated in this Form and may use sub-headings for Items provided under the headings “Other important information” and “Other material facts” as no sub-headings have been stipulated, and

(c) not incorporate by reference into the prospectus, from any other document, information that is required to be included in this Form.

(7) Unless otherwise stated, this Form does not mandate the use of a specific font size or style but the font must be legible. Where the prospectus is made available online, information must be presented in a way that can be printed in a readable format.

(8) A prospectus may contain photographs and artwork only if they are relevant to the business of the scholarship plan or members of the organization of the scholarship plan and are not misleading.

(9) A prospectus must not contain design elements (e.g., graphics, photos, artwork) that detract from the information disclosed in the document.

(10) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.

(11) If the term “class” is used in any Item to describe securities, the term also includes a series.

(12) Where performance data is presented in the prospectus, annual compound returns must be presented for standard applicable performance periods of 1, 3, 5 and 10 years and the period since inception unless otherwise specified by the requirements of this Form. Performance data for periods of less than one year must not be presented. Hypothetical or back-tested performance data must not be presented.

Contents of a Scholarship Plan Prospectus

(13) This Form permits three formats: a prospectus for a single scholarship plan, a multiple prospectus for multiple scholarship plans, and a prospectus for a multiple class scholarship plan.

(14) A prospectus must pertain to one scholarship plan and consist of four parts, a Part A, a Part B, a Part C and a Part D.

(15) The Part A of the prospectus contains the responses to the Items in Part A of this Form and highlights in a summary format some key information about investing in a scholarship plan.

(16) The Part B of the prospectus contains the responses to the Items in Part B of this Form, introductory information about the scholarship plan and general information about the investment fund family.

(17) The Part C of the prospectus contains the responses to the Items in Part C of this Form and specific information about the scholarship plan offered under the prospectus.

(18) The Part D of the prospectus contains the response to the Items in Part D of this Form, information applicable to the members of the organization, the entities involved in running the scholarship plan, mandatory appendices and certificates.

(19) A prospectus must present each Item in the Part A, B, C and D of this Form in the respective order provided for in this Form.

(20) Section 3A.2 of National Instrument 41-101 – General Prospectus Requirements permits certain documents to be attached to, or bound with, a prospectus. Those documents consist of the documents incorporated by reference into the prospectus, account application documents and registered tax plan applications, and documents required by securities legislation. No other documents may be attached to, or bound with, a scholarship plan prospectus.

Consolidation of Scholarship Plan Prospectuses into a Multiple Prospectus

(21) If more than one scholarship plan is combined in one prospectus to form a multiple prospectus, separate disclosure in response to each Item in the Part A, B, C and D of this Form must be provided for each scholarship plan unless otherwise indicated in the Form.

(22) Section 3A.2 of National Instrument 41-101 General Prospectus Requirements states that a scholarship plan must not be consolidated with one or more scholarship plans to form a multiple prospectus unless the Items in the Part B and Part D of this Form for each scholarship plan are substantially similar. The Part B and Part D in a multiple prospectus document need not be repeated. These provisions permit a scholarship plan issuer to create a document that contains the disclosure for a number of scholarship plans in the same family.

(23) *As with a single prospectus, a multiple prospectus will consist of four parts:*

(a) a number of Part A sections, each of which will provide the specific disclosure about each scholarship plan as required by the Part A of this Form. The information required by the Part A must not be consolidated. Each Part A for a separate scholarship plan must start on a new page,

(b) a Part B that contains general information about the scholarship plans, or the investment fund family, described in the document,

(c) a number of Part C sections, each of which will provide the specific disclosure about each scholarship plan as required by the Part C of this Form. The information required by the Part C must not be consolidated. Each Part C for a separate scholarship plan must start on a new page, and

(d) a Part D that contains information about the members of the organization, the entities involved in running the scholarship plan, mandatory appendices and certificates.

(24) The Part A of the prospectus must not be attached to, or bound with, any other parts of the prospectus or any other documents. The Part A of a multiple prospectus may only be consolidated as permitted by section 3A.3 of National Instrument 41-101 General Prospectus Requirements.

(25) The Part B, C and D must be bound together.

(26) The prospectus must present the information in each of the Part A, B, C and D in the order provided for by this Form.

(27) Since a prospectus consists of a Part A, Part B, Part C and Part D, delivery of all four parts is necessary in order to satisfy the prospectus delivery obligations in connection with the sale of securities of a particular scholarship plan.

(28) In Part B and Part D of this Form, specific instructions are sometimes provided for a single prospectus and a multiple prospectus. The remainder of Part B and Part D of this Form generally refers to disclosure required for “a scholarship plan” in a “prospectus”. This disclosure should be modified as appropriate to reflect multiple scholarship plans covered by a multiple prospectus.

Multi-Class Scholarship Plans

(29) A scholarship plan that has more than one class or series that are referable to the same portfolio may treat each class or series as a separate scholarship plan for purposes of this Form, or may combine disclosure of one or more of the classes or series in one prospectus. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each Part in this Form must be provided for each class or series unless the responses would be identical for each class or series or as otherwise provided in the Form.

General Application

Item 1 — Plain Language and Presentation

1.1 — Preparation in the Required Form

Relating to the presentation of the content of a prospectus, the scholarship plan prospectus must be prepared in accordance with this Instrument.

Part A — Plan Summary

Item 1 — Plan Summary for a [*name and type of scholarship plan*] Scholarship Plan

1.1 — Reading level

The prospectus must present the information contained in the plan summary at a grade level of 6.0 or less on the Flesch-Kincaid grade level scale for a plan summary in English or the equivalent for a plan summary in French.

1.2 — Plan Summary

Include at the top of a new page a heading consisting of:

- (a) the title “Plan Summary”,
- (b) the name of the scholarship plan to which the plan summary pertains and, if the scholarship plan has more than one class or series of securities, the name of the class or series covered in the plan summary,
- (c) the type of scholarship plan, whether it is a group plan, an individual plan or a family plan,
- (d) the name of the investment fund manager of the scholarship plan, and
- (e) the date of the plan summary.

INSTRUCTIONS

(1) The definition of investment fund manager refers to a person or company that directs the business, operations or affairs of the investment fund and is the entity required to be registered under securities legislation. The term should be interpreted broadly and can include a group of members on the board of a scholarship plan sponsor that performs one or more of the functions of an investment fund manager.

(2) *The date for a plan summary that is filed as part of a preliminary scholarship plan prospectus or scholarship plan prospectus must be the date of the certificate. The date for a plan summary that is filed as part of a pro forma scholarship plan prospectus must be the date of the scholarship plan prospectus.*

(3) *A plan summary can be produced in colour or in black and white, and in portrait or landscape orientation.*

(4) *A plan summary must contain only the information that is specifically mandated or permitted by this Form. In addition, each Item must be presented in the order and under the heading or sub-heading stipulated in this Form.*

(5) *A plan summary must disclose information about only one class or series of securities of a scholarship plan. Scholarship plans that have more than one class or series of securities that are referable to the same portfolio of assets must treat each class or series as a separate scholarship plan for purposes of this Form.*

Contents of a Plan Summary

1.3 — Plan Summary for a [insert type of scholarship plan or name] Scholarship Plan

(1) Under the heading “Plan Summary”, include the information listed in Items 1.3(2) to 1.3(13).

(2) Under the sub-heading “[insert scholarship plan name]”, and using a larger font size relative to the rest of the text of the plan summary and prospectus, state using substantially the following wording:

This summary tells you some key things about investing in the plan. It may not contain all the information you want. You should read the entire prospectus carefully before you decide to invest.

If you change your mind

You have up to 60 days after signing your contract to cancel your plan and get back all of your money.

If you (or we) cancel your plan after 60 days, you’ll get back your contributions, less sales charges and fees. You will lose your earnings. Your grants will be returned to the government. **Since you pay sales charges up front, you could end up with much less than what you put in.**

(3) Under the sub-heading “What is a [insert type of scholarship plan] scholarship plan?”, state using substantially the following wording:

A scholarship plan is one of many ways to save for a child’s education. Like most scholarship plans, the [insert name of the plan] is set up as a Registered Education Savings Plan (RESP). That means your money can grow without being taxed until it is withdrawn

from the plan. The federal government and some provincial governments offer grants to help you save even more.

With a [*insert type of scholarship plan*] scholarship plan, you are part of a group of investors. Everyone's money is invested together. [*Modify the remaining paragraph as required for an individual or family plan*] When the plan matures, each child in the group shares in the earnings. Your share of the earnings plus your grants is paid to your child as education assistance payments (EAPs).

There are two main exceptions. Your child will not receive EAPs, and you will lose your earnings and grants if:

- your child does not enrol in a school or program that qualifies under the plan, or
- you drop out of the plan before the plan matures

[*Modify the following paragraph as required for an individual or family plan*]

If you drop out of the plan, your earnings go to the remaining members of the group. However, if you stay in the plan until it matures, you may benefit from the earnings of those who left the group early.

(4) Under the sub-heading “Who is this plan for?”, state the following, as applicable, using substantially the following wording:

[*Modify as required for an individual or family plan*]

This is a long-term investment plan. It is for investors:

- who can make all the scheduled contributions on time
- who can stay in the plan until it matures
- whose child will attend a qualifying school and program

If this doesn't describe you, you should consider another type of plan. For example, an individual or family plan has fewer restrictions. [*provide a reference as to where this information is available*].

(5) Under the sub-heading “What does the plan invest in?”, state using substantially the following wording:

[*Modify as required*]

The plan invests mainly in fixed income securities, such as government treasury bills, guaranteed investment certificates, mortgages and bonds. Like other investments, the plan's investments have some risk. Returns will vary from year to year. This will affect how much your plan earns and the size of any EAPs your child receives.

(6) Under the sub-heading “How do I make contributions?”, state using substantially the following wording:

[*Modify as required for an individual or family plan*]

You sign up for one or more “units” of the plan. These units are your share of the plan. You can pay for them all at once, or you can make annual or monthly contributions.

You can change the amount of your contribution as long as you make the minimum contribution. You can also change your contribution schedule. A fee applies.

(7) Under the sub-heading “How do the payments work?”, state using substantially the following wording:

[Modify as required for an individual or family plan]

In your child’s first year of college or university, you’ll get back your contributions, less fees. You can have them paid to you or your child. This money is not taxed.

[Modify as required for the terms of the group plan contract, or an individual or family plan]

Your child will be eligible for EAPs in their first, second, third and fourth years. Your child must show proof they are enrolled in a qualifying school and program to get an EAP.

EAPs are taxable income to your child. Since most students have little or no other income, they will likely pay little or no tax on this money.

(8) Under the sub-heading “What are the risks?”, state using substantially the following wording:

If you do not meet the terms of the plan, you could lose some or all of your investment. Your child may not receive all of their EAPs. Your child’s education could be affected.

You should be aware of five things that could result in a loss:

1. You drop out of the plan before the maturity date. People drop out of the plan for many reasons. Most often, it’s because their financial situation changes due to job loss, divorce or other life events. If you drop out after 60 days from signing your contract, you’ll lose all or part of your contributions to sales charges and fees. You’ll also lose the income earned on your investment and your government grant contribution room.

2. You miss a contribution. If you want to stay in the plan, *[modify the remaining paragraph as required for an individual or family plan]* you’ll have to make up the contribution. You’ll also have to make up what your contribution would have earned if you had made it on time. This can be costly.

If you have difficulty making contributions, you can reduce or suspend your contributions, transfer to another RESP or cancel your plan. Restrictions and fees apply. Some options will result in a loss of earnings and grants. If you miss a contribution and don’t take any action within • months, we may cancel your plan.

3. You or your child misses a deadline. This can limit your options later on. You could also lose the earnings on your investment. The two key deadlines for this plan are:

- **Maturity date for making changes**

You have until the maturity date to make changes to your plan. This includes switching a child, changing the maturity date if your child wants to start their program sooner or later than expected, and changing the type of plan you have. Restrictions and fees apply.

- **[Insert date] for EAPs**

If your child qualifies for an EAP, they must apply by [insert date] before their first [if applicable], second, third and fourth years of eligible studies if they want to receive a payment for that year. Otherwise, your child may lose this money.

4. Your child doesn't go to a qualifying school or program. For example, [insert types of programs] are not allowed under this plan. You can name another child under the plan, transfer your plan to another RESP or cancel your plan. Restrictions and fees apply. Some options will result in a loss of earnings and grants.

5. Your child doesn't complete their program. Your child may lose some or all of their EAPs if they take time off from their studies, do not complete all required courses in a year or change programs. Your child may be able to defer an EAP for a year if they go back to a qualifying program. Deferrals are at our discretion.

(9) Using the margin of the page, add a sidebar under the sub-heading “What are the risks?”, and state using substantially the following wording:

(12) Under the sub-heading “Are there any guarantees?”, state using substantially the following wording:

A copy of this preliminary prospectus has been filed with the securities regulatory authority (ies) in [each of/certain of the provinces/provinces and territories of Canada] but has not yet become final for the purpose of the sale of securities. Information contained in this preliminary prospectus may not be complete and may have to be

INSTRUCTION

Scholarship plans issuers must complete the bracketed information by:

(a) inserting the names of each jurisdiction in which the scholarship plan issuer intends to offer securities under the prospectus,

(b) stating that the filing has been made in each of the provinces of Canada or each of the provinces and territories of Canada, or

(c) identifying the filing jurisdictions by exception (i.e., every province of Canada or every province and territory of Canada, except [excluded jurisdictions]).

1.2 — Required Statement

State in italics at the top of the cover page the following with bracketed information completed:

Although this prospectus must be filed with the securities regulatory authority in [each of/certain of the provinces/provinces and territories of Canada], the securities regulatory authority does not assess the merit of the scholarship plan[s] or the accuracy of the information, or endorse any products or services. If anyone tells you otherwise, it is an offence under securities legislation.

1.3 — Basic disclosure about the Distribution

(1) State the following immediately below the disclosure required under sections 1.1 and 1.2 with the bracketed information completed:

[PRELIMINARY OR PRO FORMA] PROSPECTUS
[CONTINUOUS OFFERING]

[Date]

[Name of Scholarship Plan(s)]

[type of securities qualified for distribution under the prospectus, including any options or warrants, and the price per security or minimum subscription amount]

[type of fund— state the following: “This is a scholarship plan. It is a type of investment fund.”].

(2) State the name of the investment fund manager and portfolio adviser(s) of the scholarship plan and provide a cross reference to the sections in the prospectus where information about the manager and portfolio adviser(s) can be found.

INSTRUCTION

(1) The definition of investment fund manager refers to a person or company that directs the business, operations or affairs of the investment fund and is the entity required to be registered under securities legislation. The term should be interpreted broadly and is intended to include a group of members on the board of a scholarship plan issuer or scholarship plan foundation that acts in the capacity of decision-maker.

(2) The date of the document must be the date of the certificates contained in the prospectus. The date must be within three business days of the date the document is filed with the securities regulatory authorities. Write the date in full with the name of the month in words. A pro forma scholarship plan prospectus does not have to be dated, but may reflect the anticipated date of the scholarship plan prospectus.

Item 2 — Inside Cover Page

2.1 — Warning Language

Starting on a new page on the inside cover page under the heading “Important information to know before you invest”, include an introduction to the information provided in response to Items 2.2 , 2.3, and 2.4 of this Part using substantially the following wording:

The following is important information you should know if you are considering an investment in a scholarship plan.

2.2 — No Social Insurance Number warning

Under the sub-heading “No social insurance number = No grants, no tax benefits”, state using substantially the following wording:

We need social insurance numbers for you and each child named as a beneficiary under the plan before we can register your plan. The *Income Tax Act* (Canada) won’t allow us to register a scholarship savings plan without these social insurance numbers. Your plan must be registered before it can:

- qualify for the tax benefits of a Registered Education Savings Plan (RESP), and
- receive any government grants.

If you don’t provide the social insurance numbers when you enrol, we’ll put your contributions into an unregistered education savings account. During the time your contributions are held in this account, we will deduct sales charges and fees from your contributions as outlined on page •. You will be taxed on any income earned in this account.

If we receive the social insurance numbers within • months of the day you enrolled, we’ll transfer your contributions and the income they earned to a registered plan.

If we do not receive the social insurance numbers within • months of the day you enrolled, we'll cancel your plan. You'll get back your contributions and the income earned, less sales charges and fees. Since you pay sales charges up front, you could end up with much less than you put in.

If you don't expect to get the social insurance numbers within • months of enrolling in the plan, you should not enrol or make contributions to the plan.

2.3 — Speculative investment

(1) Following the disclosure required under Item 2.2, state on the inside cover page under the sub-heading "Payments not guaranteed", using substantially the following wording:

We cannot tell you in advance if your child will qualify to receive any payments from the plan or how much your child will receive. We do not guarantee the amount of any payments or that they will cover the full cost of your child's post-secondary education.

(2) For a group scholarship plan, under the sub-heading "Payments from group plans depend on several factors" state using substantially the following wording:

The amount of the payments will depend on how much the plan earns, the number of beneficiaries in the group who qualify for payments, the number of beneficiaries who do not qualify for payments, and [as applicable – any amount paid at the discretion of [name of entity funding the discretionary payment]].

(3) If the scholarship plan provides for any discretionary payments, immediately following the disclosure required under subsection 2.3(1) or 2.3(2), as applicable, list the discretionary payments that may be provided and state in substantially the following wording:

Discretionary payments are not guaranteed. You must not count on receiving a discretionary payment. The [name of entity funding the discretionary payment] decides if it will make a payment in any year and how much the payment will be. If the [name of entity funding the discretionary payment] makes a payment, you may get less than what has been paid in the past. You may also get less than what is paid to beneficiaries in other beneficiary groups.

(4) Under the sub-heading "Understand the risks", state using substantially the following wording:

If you withdraw your contributions early or do not meet the terms of the plan, you will likely lose some or all of your money. Make sure you understand the risks before you invest. Carefully read the Plan summary and the "Risk factors" on page •.

2.4 — Sixty day withdrawal right

Following the disclosure required under Item 2.3, and under the sub-heading “If you change your mind” state using substantially the following wording:

You have up to 60 days after signing your contract to cancel your plan and get back all of your money.

If you (or we) cancel your plan after 60 days, you’ll get back your contributions, less sales charges and fees. You will lose your earnings. We will return your grants to the government. **Since you pay sales charges up front, you could end up with much less than what you put in.**

(2) Begin the table of contents on a new page.

(3) Include in the table of contents, under the heading “Specific information about our plans,” a list of all of the scholarship plans covered by the prospectus, with a reference to the page numbers where information about each plan can be found.

Item 4 — Introduction

You can get a copy of these documents at no cost by calling us at [insert the toll-free telephone number or telephone number where collect calls are accepted] or by contacting us at [insert scholarship plan's e-mail address].

[If applicable] You'll also find these documents on our website at [insert scholarship plan's website address].

These documents and other information about the plan are also available at www.sedar.com.

(2) If the scholarship plan is in continuous distribution, state that any documents, of the type described in subsection 4.1(1), if filed by the scholarship plan after the date of the prospectus and before the termination of the distribution, are deemed to be incorporated by reference in the prospectus.

4.2 — Terms used in the Prospectus

Under the heading “Terms used in this prospectus” provide the following list of defined terms using substantially the following wording:

In this document, “we”, “us” and “our” refer to [name of entities involved in the administration and distribution of scholarship plan securities]. “You” refers to potential investors, subscribers and beneficiaries.

The following are definitions of some key terms you will find in this prospectus.

Accumulated income payment (AIP): the portion of the income earned on your contributions and grants that you may get back if your beneficiary does not pursue post-secondary education and you meet certain conditions set by the federal government.

For a group plan, only income earned on the grants is eligible for an AIP.

Application date: the date you sign your savings plan contract. We consider this to be the date you opened your plan with us.

Attrition: under a group plan, the number of beneficiaries who have left their beneficiary group because their plan was cancelled. See also pre-maturity attrition and post-maturity attrition.

Beneficiary: the person you name to receive income and payments under the plan.

Beneficiary group: beneficiaries in a group plan who have the same year of eligibility. They are typically born in the same year.

Contract: an agreement you enter into with us when you open your savings plan.

Contribution: the amount you pay into a plan. Contributions are used to calculate the Canada Education Savings Grants (CESGs). Sales charges and other fees are deducted from your contributions and the remaining amount is invested in your plan.

Discretionary payment: a payment that beneficiaries in a group plan may receive in addition to their EAPs. Discretionary payments are usually made by the plan's investment fund manager. These payments are not guaranteed. The investment fund manager decides whether a payment will be made in any year and how much will be paid. It is possible that this money may not be available when your plan matures.

Discretionary payment account: any account that holds money used to fund any discretionary payments under a group plan. It typically consists of interest on income earned after the maturity date, interest earned on contributions from subscribers who have cancelled their plan from the date of the cancellation to maturity, unclaimed contributions (less fees), unclaimed educational assistance payments (EAPs), EAPs of beneficiaries who did not qualify for all of their EAPs and interest earned on CESGs for beneficiaries who cancelled their plan before *[insert date]*.

EAP account: for group plans, an account that holds the income earned on contributions from all subscribers in a beneficiary group. This includes the income earned on contributions of subscribers who have cancelled their plan. The money in this account is distributed to the remaining beneficiaries as part of their educational assistance payments (EAPs).

Educational assistance payment (EAP): an educational assistance payment, as defined in the *Income Tax Act* (Canada). In general, an EAP is a payment made to your beneficiary after the maturity date. It consists of your grants, the income earned on the grants and your beneficiary's share of the EAP account. EAPs do not include a return of contributions or any discretionary payments. These are paid separately.

Eligible studies/qualifying school or program: a post-secondary educational institution or program that meets the plan's requirements for a beneficiary to receive EAPs.

Grant: any financial grant, bond or incentive offered by the federal government or a provincial government to assist with saving in an RESP.

Grant contribution room: the amount of grant money you are eligible for under a federal or provincial government grant. Unused contribution room can be carried forward and used in future years.

Income/earnings/returns: any money earned on your contributions and grants, such as interest and capital gains. For group plans, it does not include any income earned in the discretionary payment account, such as interest earned on income after the maturity date.

Individual beneficiary account: an account established for a specific beneficiary that is not pooled with other investors. For group plans, it includes [*list the sources of money it holds .. typically grants and the income earned on the grants, contributions (less fees) not withdrawn after maturity of the plan*].

For other types of plans, it includes [*list the sources of money it holds*].

Maturity date: the date on which the plan matures. On that date, your contributions, less fees, can be returned to you. For plans other than group plans, it is also the date after which your beneficiary can start receiving EAPs.

The maturity date is typically within six months of the beneficiary's 18th birthday. In general, it is the year your beneficiary is expected to enrol in their first year of post-secondary education.

Plan: means [*list the name of each of the scholarship plan sold under this prospectus*], each a scholarship plan offered by [Name of Scholarship plan group] to provide funding for the beneficiary's post-secondary education. When you invest in one of our plans, you and your beneficiaries must meet the terms of the savings plan contract to receive payments from the plan.

Post-maturity attrition: under a group plan, the number of beneficiaries who left their beneficiary group after the maturity date. See also attrition.

Pre-maturity attrition: under a group plan, the number of beneficiaries who left their beneficiary group before the maturity date. See also attrition.

Subscriber: the person who enters into a savings plan contract with [*insert name of parties to the contract – must include the scholarship plan being designated under its exact legal name ie. the name of the issuer*] to make contributions to a plan.

Unit: under a group plan, you are assigned units when you purchase a plan. A unit represents your beneficiary's proportionate share of any pooled income, EAPs and other payments from a pooled source provided for under the terms of your plan. The amount your beneficiary receives relative to other beneficiaries is in proportion to the number of units you purchase. The terms of the contract determine the value of the unit.

Unregistered education savings plan: a plan that has not been registered as a Registered Education Savings Plan (RESP) under the *Income Tax Act* (Canada). We cannot register a plan until we have the social insurance number of the subscriber and beneficiary. An unregistered education savings plan cannot receive grants for RESPs and does not qualify for the tax benefits of an RESP.

Year of eligibility: the year in which a beneficiary is first eligible to receive EAPs under a plan. For a group plan, it is typically the year your beneficiary will enter their [*as*

applicable, first or second] academic year of eligible studies. In general, the year of eligibility is [*as applicable, one year after or the same year as*] the maturity date.

For other types of plans, the year of eligibility can be any time after the maturity date.

INSTRUCTIONS

(2) It is expected that where possible, the commonly used terms as set out in section 4.2 will be the terms used in the prospectus to promote comparability between issuers.

(3) Use defined terms sparingly and only to avoid confusion. Where a technical term is used, explain what it means when it is first used in the prospectus.

(4) If applicable, under the sub-heading “Contribution schedule” describe the contribution schedule of the scholarship plan.

(5) If applicable, include under the sub-heading “Purchase price” a table in the form of the following table and introduced using substantially the following wording:

The table below shows you how much it costs to buy a unit. The price you pay depends on your beneficiary group and whether you pay for your units all at once or make monthly contributions. The prices are calculated so that the contributions of each subscriber in a beneficiary group will generate the same income per unit.

This table [has/ has not *as applicable*] been certified by an actuary – [*name of the actuary as applicable*]. The information in the table has been taken from the contribution schedule on page •.

Beneficiary group	Price per unit	
	If you make a lump-sum payment	If you make monthly payments
	\$ •	\$ • (\$• per month x • [<i>number of months to pay for unit</i>] months)
[<i>year of eligibility for corresponding age</i>] ([<i>age corresponding to next year of eligibility in descending order</i>] • years)	\$ •	\$ • (\$• per month x • [<i>number of months to pay for unit</i>] months)
[<i>year of eligibility for corresponding age</i>] (0 years)	\$ •	\$ • (\$• per month x • [<i>number of months to pay for unit</i>] months)

(6) In the table above disclose:

- (a) the price per unit (less sales charges, fees and any insurance) by beneficiary group based on the typical age of a beneficiary at time of purchase, and

(5) Under the sub-sub-heading, “Your options” describe the options available to subscribers having difficulty making contributions in substantially the following words:

If you have difficulty making contributions, you can:

- reduce the amount of your contributions,

21.2 — Other potential risks of forfeiting income

(1) Under the sub-heading “Loss of income earned in your plan” disclose:

(a) any circumstances resulting from actions or inactions of the subscriber and/or the beneficiary not already disclosed that may result in a forfeit or loss of accumulated income in a plan, such as ceasing to be a resident of Canada,

(b) what happens to the accumulated income on contributions that has been forfeited or lost,

(c) the cross-references to the risks described in response to Item 1.3(8) of Part A of this Form that are applicable to the scholarship plan, and

(d) what happens to the accumulated income on the government grant money that is returned to the government.

Item 22 — Attrition disclosure for a [type of scholarship plan or name] scholarship plan [if applicable]

22.1 — Attrition

(1) Under the heading “Attrition” and the sub-heading “Failure to qualify for EAPs”, state using substantially the following wording:

You and your beneficiary must meet the terms of the plan in order for your beneficiary to qualify for all of the EAPs under the plan. Failing to qualify for EAPs is known as “attrition”. Your beneficiary may not qualify for some or all of their EAPs if:

- before the maturity date of the plan, you cancel your plan or transfer your plan to another RESP, or we cancel your plan because you failed to make contributions on schedule and did not take action to keep your plan in force. This is known as “pre-maturity attrition”.

- after the maturity date of the plan, your beneficiary decides not to pursue a post-secondary education, does not attend a qualifying education program, or does not attend a qualifying education institution for the full period provided for in the plan. . This is known as “post-maturity attrition”.

(2) Under the sub-heading “How attrition affects contributions” state using substantially the following wording:

Pre-maturity attrition

You will get back your contributions, less fees. You will not get back any earnings. The income earned on your contributions up to the time your plan is cancelled will go to the remaining beneficiaries in your beneficiary group as part of their EAPs.

Post-maturity attrition

You will get back your contributions, less fees. You will not get back any earnings. The income earned on your contributions and any EAPs that would otherwise have been paid to your beneficiary will go to the remaining beneficiaries in your beneficiary group as part of their EAPs.

22.2 — Pre- Maturity Attrition and payments to Beneficiaries

(1) Under the sub-heading “How attrition affects EAPs” and the sub-sub-heading “Pre-maturity attrition”, state using substantially the following wording:

Income from cancelled units

When a subscriber cancels their plan before maturity, the income earned on their contributions goes to the remaining beneficiaries in the beneficiary group. This money continues to earn income [*state what happens to this income on income.*]

The following table shows you the current value of the income from cancelled units by beneficiary group. The amount of income from cancelled plans available to beneficiaries after the year of eligibility will depend on how many subscribers cancel their plan, how many beneficiaries qualify to receive this money and investment performance.

Keep in mind that if you cancel your plan before maturity, you forfeit the income earned on your contributions. Your beneficiary will not be eligible to receive this income or any EAPs.

(2) From the scholarship plan’s financial statements, provide in the form of a table, the financial position of each beneficiary group as at the scholarship plan's financial year end in substantially the same format as set out below:

Beneficiary group	Units at [date of financial year end]				Income from cancelled units	
	Active units	Cancelled units	Total units	Percentage of units that have been cancelled	Total income	Income per unit
<i>[year of eligibility for corresponding age of oldest beneficiary] ([age of oldest beneficiary eligible for group scholarship plan under this prospectus] • years)</i>						
<i>[year of eligibility for corresponding age of oldest beneficiary] ([age of oldest beneficiary eligible for group scholarship plan under this prospectus minus one year] • years)</i>						
<i>[year of eligibility for corresponding age of youngest beneficiary for whom a plan may be purchased under this prospectus] ([age of youngest beneficiary eligible for this scholarship plan under this prospectus] • years)</i>						

(3) State the risk of fees in the event of a cancellation or withdrawal if the subscriber participates in a periodic contribution schedule using substantially the following wording:

You will be eligible for a full refund if you cancel your plan up to 60 days after signing your contract. If you make a withdrawal or cancel your plan any time after that, you will likely lose money, especially during the first few years of your plan. This is because 50% to 100% of your contributions are used to pay the sales charge over the first • years of your plan. The plan would need extraordinary investment returns to make up for the fees and begin to realize a profit.

(4) Under the sub-sub-sub-heading “If you drop out of the plan” describe the effects of cancelling or withdrawing from a plan prior to maturity of the savings plan, including what happens to a subscriber’s contributions, income, grants, eligible contribution room, and eligibility for refunds of sales charges.

(5) Provide information about drop-out rates in the scholarship plan using substantially the following wording:

Drop-out rate

Since the plan was established in [year], an average of •% of subscribers a year have dropped out of the plan before it matured. The table below lists the reasons why subscribers left the plan, in order of most common reason.

Reason for leaving the plan	Average annual rate since [year plan established]
Subscriber cancelled plan	•%
Subscriber defaulted and investment fund manager cancelled their plan	•%
Subscriber transferred to another RESP provider	•%
Subscriber reduced units	•%

(a) has changed, or proposes to change, the basis of the calculation of the management fees or other fees, charges or expenses that are charged to the scholarship plan, or
