(1) Significant Acquisitions

Unless the context otherwise requires, the term "significant

acquisition" refers to an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses that satisfies any of the significance tests.

(2) **Required Significance Tests at Date of Acquisition**

For the purposes of this Rule, an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses is a significant acquisition, if it satisfies any of the following three tests:

1. **The Asset Test.**

The issuer's proportionate share of the consolidated assets of the business or related businesses exceeds 20 per cent of the consolidated assets of the issuer calculated using the audited financial statements of each of the issuer and the business or the related businesses for the most recently completed financial year of each ended before the date of the acquisition.

2. **The Investment Test.**

The issuer's consolidated investments in and advances to the business or the related businesses as at the date of the acquisition or the proposed date of the acquisition exceeds 20 per cent of the consolidated assets of the issuer as at the last day of the most recently completed financial year of the issuer ended before the date of the acquisition for which audited financial statements are included in the prospectus, excluding any investments in or advances to the business or the related businesses as at that date.

3. **The Income Test.**

The issuer's proportionate share of the consolidated income from continuing operations of the business or related businesses exceeds 20 per cent of the consolidated income from continuing operations of the issuer calculated using the audited financial statements of each of the issuer and the business or related businesses for the most recently completed financial year of each ended before the date of the acquisition.

(3) **Optional Significance Tests Subsequent to the Date of Acquisition**

If an acquisition of a business, an acquisition of related businesses,

a probable acquisition of a business or a probable acquisition of related businesses is significant based on the significance tests in subsection (2), the issuer may re-calculate the significance at a more recent date as follows:

1. **The Asset Test.**

The issuer's proportionate share of the consolidated assets of the business or the related businesses, as at the date of the issuer's most recent balance sheet included in the prospectus, exceeds 20 per cent of the consolidated assets of the issuer, as at the date of the issuer's most recent balance sheet included in the prospectus, without giving effect to the acquisition.

2. **The Investment Test.**

The issuer's consolidated investments in and advances to the business or the related businesses as at the date of the acquisition or the proposed date of the acquisition exceeds 20 per cent of the consolidated assets of the issuer as at the date of the issuer's most recent balance sheet included in the prospectus for a period that ends before the date of the acquisition, excluding any investments in or advances to the business or the related businesses as at that date.

3. **The Income Test.**

The income from continuing operations calculated pursuant to the following clause (a) exceeds 20 per cent of the income from continuing operations calculated pursuant to the following clause (b):

(a) The issuer's proportionate share of the consolidated income from continuing operations of the business or the related businesses for the later of

(i) the most recently completed financial year of the business or the related businesses that ended more than 90 days before the date of the prospectus, or

(ii) the 12 months ended on the last day of the most recently completed interim period of the business or related businesses that ended more than 60 days before the date of the prospectus.

- (b) The issuer's consolidated income from continuing operations for the later of
 - (i) the most recently completed financial year, without giving effect to the acquisition, or
 - (ii) the 12 months ended on the last day of the most recently completed interim period of the issuer for which financial statements are included in the prospectus, without giving effect to the acquisition.
- (4) If an issuer re-calculates the significance of an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses pursuant to subsection (3) and none of the significance tests in that subsection is met, the acquisition is not a significant acquisition for purposes of this Rule.
- (5) Despite subsection (3), the significance of an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses may be re-calculated only if, subsequent to the acquisition date, the business or related businesses remained substantially intact, were not significantly reorganized, and no significant assets and liabilities were transferred to other entities.
- (6) Despite subsection (2), the significance of an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses may be calculated using unaudited financial statements of the business or related businesses prepared in accordance with GAAP if the financial statements of the business or related businesses for the most recently completed financial year prior to the date of the acquisition have not been audited.
- (7) In determining whether an acquisition of related businesses or a probable acquisition of related businesses is a significant acquisition, the related businesses shall be considered on a combined basis.
- (8) If an issuer has accounted for an acquisition as a reverse take-over in accordance with section 4.5 of this Rule, for the purposes of subsections (2) and (3), the legal parent, as that term is used in the Handbook, shall be considered the business.
- (9) For the purposes of the significance tests in subsections (2) and

(3), financial statements of the business or the related businesses which are prepared in accordance with foreign GAAP or denominated in a foreign currency shall be reconciled to Canadian GAAP or translated into Canadian dollars, respectively.

2.3 Application of the Income Test

- (1) For the purposes of paragraph 3 of each of subsections 2.2(2) and 2.2(3), if any of the issuer or the business or the related businesses has incurred a loss, the test shall be applied using the absolute value of the loss.
- (2) For the purpose of calculating the significance of individually insignificant unrelated multiple acquisitions, entities reporting losses from continuing operations shall not be aggregated with entities reporting income from continuing operations.

(3) Lower than Average Income of the Issuer - Required Significance Tests

For the purposes of paragraph 3 of subsection 2.2(2), if the issuer's consolidated income from continuing operations for the most recently completed financial year referred to in subsection 2.2(2) was

1. positive, and
2. lower by 20 per cent or more than the average consolidated income from continuing operations of the issuer for the three most recently completed financial years,

then the average consolidated income for the three most recently completed financial years may, subject to subsection (6), be substituted in determining whether the significance test set out in subsection 2.2(2) is satisfied.

(4) Lower than Average Income of the Issuer - Optional Significance Tests Using Most Recently Completed Financial Year

For the purposes of paragraph 3 of subsection 2.2(3), if the issuer's consolidated income from continuing operations for the most recently completed financial year referred to in subclause 3(b)(i) of subsection 2.2(3) was

1. positive, and
2. lower by 20 per cent or more than the average

consolidated income from continuing operations of the issuer for the three most recently completed financial years,

then the average consolidated income for the three most recently completed financial years may, subject to subsection (6), be substituted in determining whether the significance test set out in paragraph 3 of subsection 2.2(3) is satisfied.

(5) **Lower than Average Income of the Issuer - Optional Significance Tests Using Most Recently Completed Twelve Months**

For the purposes of paragraph 3 of subsection 2.2(3), if the issuer's consolidated income from continuing operations for the most recently completed 12 month period referred to in subclause 3(b)(ii) of subsection 2.2(3) was

1. positive, and
2. lower by 20 per cent or more than the average consolidated income from continuing operations of the issuer for the three previous 12 month periods,

then the average consolidated income for the three previous 12 month periods may, subject to subsection (6), be substituted in determining whether the significance test set out in paragraph 3 of subsection 2.2(3) is satisfied.

(6) **Loss**

If the issuer's consolidated income from continuing operations for either of the two earlier financial years referred to in subsections (3) and (4), or either of the two earlier 12 month periods referred to in subsection (5), is a loss, the issuer's consolidated income from continuing operations for that period is considered to be zero for the purposes of calculating the average consolidated income for the three previous periods.

- (1) The term "probable acquisition" refers to a probable acquisition of a business and a probable acquisition of related businesses.
- (2) The term "significant probable acquisition" refers to a probable acquisition of a business or a probable acquisition of related businesses that is a significant acquisition under section 2.2.

Unless the context otherwise requires, the term "disposition" refers to a completed or probable disposition of a business, a business segment or a significant portion of a business, either by sale, abandonment or distribution to shareholders.

(2) Required Significance Tests using Most Recently Completed Financial Year

For the purposes of this Rule, a disposition of a business, a business segment or a significant portion of a business is a significant disposition if it satisfies either of the following tests:

1. The Asset Test for Dispositions

The issuer's proportionate share of the consolidated assets of the business, business segment or significant portion of a business exceeds 20 per cent of the consolidated assets of the issuer as at the date of the audited financial statements of the issuer for its most recently completed financial year ended before the date of the disposition for which financial statements are included in the prospectus, without giving effect to the disposition.

2. The Income Test for Dispositions

The issuer's proportionate share of the consolidated income from continuing operations of the business, business segment or significant portion of a business for the most recently completed financial year of the business, business segment or a significant portion of a business before the date of the disposition exceeds 20 per cent of the total consolidated income from continuing operations of the issuer for the most recently completed financial year of the issuer before the date of the disposition for which audited financial statements are included in the prospectus, without giving effect to the disposition.

2.7 Calculation of Market Capitalization for Junior Issuer

- (1) For the purposes of the definition of "junior issuer", the aggregate market value of the issuer's equity securities is the aggregate of the market value of each class of its equity securities for which there is a published market, calculated, for each class, by multiplying the simple average of the closing prices of the equity securities of the class for each of the 20 most recent trading days on which there was a closing price, the last of which days was no more than five trading days prior to the date of the preliminary prospectus by the simple average number of equity securities of the class outstanding over that 20 trading day period.
- (2) If a class of an issuer's equity securities is traded on more than one published market, the closing price for the market on which the equity securities of the class are principally traded shall be used for the calculation under subsection (1).

Instructions

(1) *The objective of the prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*

(2) *Terms used and not defined in this Form that are defined or interpreted in Rule 41-501 General Prospectus Requirements shall bear that definition or interpretation.*

(3) *In determining the degree of detail required a standard of materiality should be applied. Materiality is a matter of judgment in particular circumstance, and should generally be determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items should be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*

(4) *Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*

(5) *The disclosure must be understandable to readers and presented in an easy to read format. The presentation of information should comply with the plain language principles listed in section 1.2 of Companion Policy 41-501 CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.*

(6) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*

(7) Where the term "issuer" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to the issuer's subsidiaries and investees. If it is more likely than not that a person or company will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person or company. For this purpose, "investees" is defined to mean any entity that the Handbook recommends that the issuer account for by the equity method or the proportionate consolidation method.

(8) An issuer that is a special purpose vehicle may have to modify the disclosure items to reflect the special purpose nature of its business.

(9) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.

(10) If the term "class" is used in any item to describe securities, the term includes a series of a class.

(11) Disclosure in a prospectus must be consistent with National Instrument 51-101 Standards of Disclosure for Oil and Gas Activities if the issuer is engaged in oil and gas activities (as defined in National Instrument 51-101) and:

(a) has filed or is required to have filed (or has included or is required to have included in another filed document) audited annual financial statements for a financial year that ends on or after December 31, 2003;

(b) has, prior to the date on which it is required to have filed audited financial statements for a financial year that ends on or after December 31, 2003, filed or is required to have filed (or has included or is required to have included in another filed document) the statement referred to in Item 1 of section 2.1 of National Instrument 51-101;

(c) is filing a preliminary prospectus or prospectus:

(i) that includes or is required to include audited financial statements for a financial year ended on or after December 31, 2003;

(ii) after March 30, 2004 for an initial public offering of securities, and the prospectus includes financial statements for a financial year or interim period that ends on or after December 31, 2003; or

(iii) after December 31, 2003 and during the issuer's first financial year, and the prospectus includes financial statements for an interim period that ends on or after December 31, 2003; or

(d) indicates in the prospectus that information disclosed therein is presented in accordance with National Instrument 51-101.

State the estimated net proceeds received, in the case of a special warrant offering, or to be received by the issuer or selling security holder or, in the case of a non-fixed price distribution or a distribution to be made on a best efforts basis, the minimum amount, if any, of net proceeds to be received by the issuer or selling security holder from the sale of the securities distributed and state the particulars of any provisions or arrangements made for holding any part of the net proceeds of the distribution in trust or escrow subject to the fulfillment of conditions.

7.2 Funds Available

For junior issuers, disclose the total funds available and the following breakdown of those funds:

Describe in reasonable detail and, if appropriate, using tabular form, each of the principal purposes, with approximate amounts, for which the net proceeds will be used by the issuer, or for which the funds available as required under Item 7.2 will be used by a junior issuer. If the closing of the distribution is subject to a minimum subscription, provide disclosure of the use of proceeds for the minimum and maximum subscriptions.

7.4 Escrowed Proceeds

If applicable, disclose that unallocated funds will be placed in a trust or escrow account, invested or added to the working capital of the company and give details of the arrangements made for, and the persons or companies responsible for, the supervision of the trust or escrow account or the investment of unallocated funds and the investment policy to be followed.

If all or a portion of the funds have been spent, explain how the funds were spent.

INSTRUCTION

(1) *For the purposes of the disclosure in Item 7.3 the phrase "for general corporate purposes" will generally not be sufficient.*

(2) *The issuer may choose to include a statement similar to the following as a lead-in:*

"The issuer intends to spend the funds available to it as stated in this prospectus. There may be circumstances, however, where, for sound business reasons, a reallocation of funds may be necessary."

Item 8: Selected Consolidated Financial Information and Management's Discussion and Analysis

8.1 Annual Information

Provide the following financial data for the issuer in summary form for each of the last three completed financial years and any period subsequent to the most recent financial year end for which financial statements are included in the prospectus accompanied by a discussion of the factors affecting the comparability of the data, including discontinued operations, changes in accounting policies, significant acquisitions or significant dispositions and major changes in the direction of the issuer's business:

4. Total assets.

5. Total long-term financial liabilities as defined in the Handbook.
6. Cash dividends declared per share for each class of share.
7. Such other information as the issuer believes would enhance an understanding of and would highlight other trends in financial condition and results of operations.

INSTRUCTIONS

(1) The issuer is not required to update the information provided under Item 8.1 if more recent financial information has been included in the prospectus under section 4.7(2) of the Rule since the corresponding financial statements are not required to be included in the prospectus

8.2 Quarterly Information

(1) For each of the eight most recently completed quarters ending at the end of the most recently completed financial year, provide the information required in paragraphs 1, 2 and 3 of Item 8.1.

(2) For an issuer that has not been a reporting issuer for the eight most recently completed quarters ending at the end of the most recently completed financial year, provide the information required in paragraphs 1, 2 and 3 of Item 8.1 for the period that the issuer was not a reporting issuer only if the issuer has prepared quarterly financial statements for that period.

(3) If the issuer is only required to file six month interim financial statements, the information required under paragraph (1) may instead be provided for each of the four most recently completed six month periods ended at the end of the most recently completed financial year for which financial statements are included in the prospectus.

8.3 Dividends

(1) Describe any restriction that could prevent the issuer from paying dividends.

(2) Disclose the issuer's dividend policy and if a decision has been made to change the dividend policy, disclose the intended change in dividend policy.

8.4 Foreign GAAP

An issuer may present the selected consolidated financial information required in this Item 8 on the basis of foreign GAAP if

- (a) The issuer's primary financial statements have been prepared using foreign GAAP; and
- (b) The issuer provides a cross reference to the notes to the financial statements containing the reconciliation of the financial statements to Canadian GAAP.

INSTRUCTIONS

(1) If financial information that is included in the summary is derived from financial statements included in the prospectus, but the financial information is neither directly presented in, nor readily determinable from, the financial statements, include a reconciliation to the financial statements in notes.

(2) If financial information that is included in the prospectus is derived from financial statements that are not included in the prospectus, indicate in the lead-in to the summary the source from which the information is extracted, the percentage interest that the issuer has in the person or company, the GAAP principles used, the name of the auditors, the date of the report, and the nature of the opinion expressed.

(3) The derivation of ratios included in the prospectus in notes should be disclosed in notes to the prospectus.

(4) Information included in the prospectus should be presented in a manner that is consistent with the intent of Canadian accounting recommendations and practices (e.g., cash flow data should not be interspersed with amounts from an income statement in a manner which suggests that cash flow data has been or should be presented in an income statement, and cash flow data should not be presented in a manner that appears to give it prominence equal to or greater than earnings data).

8.5 Management's Discussion and Analysis

(1) Provide MD&A for the annual financial statements of the issuer included in the prospectus prepared in accordance with the requirements of

(1) Form 51-102F1; or

(2) Form 51-102F1 or Form 44-102F2, if the financial statements relate to financial years beginning before January 1, 2004.

(2) If the issuer is incorporated, organized or continued under the laws of Canada or a jurisdiction and has based the discussion in the MD&A on financial statements prepared in accordance with foreign GAAP, provide a restatement of those parts of the MD&A that would read differently if they were based on financial statements of the issuer prepared in accordance with Canadian GAAP.

(3) If an issuer has securities registered under the 1934 Act, the issuer may satisfy the requirement in paragraph (1) by including disclosure that is required under the item requirements applicable to it under the 1934 Act for management's discussion and analysis.

(4) If an issuer's primary financial statements have been prepared using foreign GAAP and the issuer is required under securities legislation to have reconciled its financial statements to Canadian GAAP at the time of filing its financial statements, or has otherwise done so at that time, then provide a cross-reference in the MD&A to the notes to the financial statements containing the reconciliation.

(5) Include MD&A for the interim financial statements of the issuer included in the prospectus, prepared in accordance with:

(1) Form 51-102F1; or

(2) Form 51-102F1 or Rule 51-501 *AIF and MD&A*, if the financial statements relate to an interim period in a financial year beginning on or after January 1, 2004.

INSTRUCTIONS

(1) *The two-year comparisons required may be presented as a single three-year comparison.*

(2) *If the issuer is required to include more recent financial information in the prospectus under section 4.7(2), 6.7(2) or 7.3(2) of the Rule, the issuer is not required to update the MD&A already included in the prospectus. However, the prospectus should include the content of the news release or public communication.*

Item 9: Earnings Coverage Ratios

9.1 Earnings Coverage Ratios

(1) If the securities being distributed are debt securities having a term to maturity in excess of one year or are preferred shares, disclose the following earnings coverage ratios adjusted in accordance with paragraph (2):

1. The earnings coverage ratio based on the 12 month period ended on the last day of the most recently completed period for which audited annual financial statements of the issuer are included in the prospectus.

2. The earnings coverage ratio based on the 12 month period ended on the last day of the most recently completed period for which interim financial statements of the issuer are included in the prospectus if the period is subsequent to the last day of the most recently completed period for which audited annual financial statements of the issuer are required to be included in the prospectus.

(2) Adjust the ratios referred to in paragraph (1) to reflect

(a) the issuance of the securities being distributed under the prospectus, based on the price at which the securities are expected to be distributed;

(b) in the case of a distribution of preferred shares,

(i) all preferred shares issued since the date of the annual or interim financial statements, and

(ii) all preferred shares repurchased, redeemed or otherwise retired since the date of the annual or interim financial statements and all preferred shares to be repurchased, redeemed or otherwise retired from the proceeds to be realized from the sale of securities under the prospectus;

(c) the issuance of all long-term financial liabilities, as defined in the Handbook;

(d) the repayment, redemption or other retirement of all long-term financial liabilities as defined in the Handbook, since the date of the annual or interim financial statements and all long-term

financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities distributed under the prospectus; and

(e) the servicing costs that were incurred, or are expected to be incurred, in relation to the adjustments.

(3) If the issuer is distributing, or has outstanding, debt securities that are accounted for, in whole or in part, as equity under Canadian GAAP, disclose in notes to the ratios required under paragraph (1)

(a) that the ratios have been calculated excluding the carrying charges for those securities that have been reflected in equity in the calculation of the issuer's interest and dividend obligations;

(b) that if those securities had been accounted for in their entirety as debt for the purpose of calculating the ratios required under paragraph (1), the entire amount of the annual carrying charges for those securities would have been reflected in the calculation of the issuer's interest and dividend obligations; and

(c) the earnings coverage ratios for the periods referred to in paragraph (1), re-calculated as though those securities had been accounted for as debt.

INSTRUCTIONS

(1) *Cash flow coverage may be disclosed but only as a supplement to earnings coverage and only if the method of calculation is fully disclosed. Earnings coverage is calculated by dividing an entity's earnings (the numerator) by its interest and dividend obligations (the denominator).*

(2) *For the earnings coverage calculation,*

(a) *the numerator should be calculated using consolidated net income before interest and income taxes;*

(b) *imputed interest income from the proceeds of a distribution should not be added to the numerator;*

(c) *an issuer may also present, as supplementary disclosure, a coverage calculation based on earnings before discontinued operations and extraordinary items;*

(d) *for distributions of debt securities, the appropriate denominator is interest expense determined in accordance with generally accepted accounting principles, after giving effect to*

the new debt issue and any retirement of obligations plus the amount of interest that has been capitalized during the period;

(e) for distributions of preferred shares,

(i) the appropriate denominator is dividends declared during the period to the new preferred share issue, plus the issuer's annual interest requirements, including the amount of interest that has been capitalized during the period, less any retirement obligations,

(ii) the coverage calculation should gross up dividends to a before-tax equivalent (the "prior deduction method") using the issuer's effective income tax rate (this is the rate that is reconciled to the basic income tax rate in the issuer's financial statement notes), and

(iii) the combined interest and dividend method (the "combined method"), and not the prior deduction method, should be used to calculate earnings coverage; and

(f) for distributions of both debt securities and preferred shares, the appropriate denominator is the same as for a preferred share issue, except that the denominator should also reflect the effect of the debt being offered pursuant to the prospectus.

(3) The prior deduction method referred to in Instruction 2(e)(ii) reflects the net coverage for preferred dividends after meeting interest obligations and results in a higher ratio than the combined method. As investors may falsely interpret the higher ratio as indicating less risk, without appreciating the fact that debt holders rank prior to preferred shareholders, the combined method should be used, although disclosure of a supplementary coverage ratio calculated using the prior deduction method is permitted.

(4) The denominator represents a pro forma calculation of the aggregate of an issuer's interest obligations on all long-term debt and dividend obligations (including both dividends declared and undeclared dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect

(a) the issuance of all long-term debt and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual or interim financial statements;

(b) the issuance of the securities that are to be distributed under the prospectus, based on a reasonable estimate of the price at

which these securities will be distributed;

(c) the repayment or redemption of all long-term debt since the date of the annual or interim financial statements, all long-term debt to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual or interim financial statements and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus; and

(d) the servicing costs that were incurred, or will be incurred, in relation to the above adjustments.

(5) If meaningful in the circumstances, the earnings coverage ratio must be calculated and disclosed based on a pro forma income statement that is included in a prospectus.

(6) For debt securities, disclosure of earnings coverage shall include language similar to the following:

*"The Company's interest requirements, after giving effect to the issue of [the debt securities], amounted to \$*for the 12 months ended*. The Company's earnings before interest and income tax for the 12 months then ended was \$*, which is * times the Company's interest requirements for this period. "*

(7) For preferred share issues, disclosure of earnings coverage shall include language similar to the following:

*"The Company's dividend requirements on all of its preferred shares, after giving effect to the issue of [the preferred shares to be distributed under the prospectus], and adjusted to a before-tax equivalent using an effective income tax rate of *%, amounted to \$* for the 12 months ended *. The Company's interest requirements for the 12 months then ended amounted to \$*. The Company's earnings before interest and income tax for the 12 months ended * was \$*, which is * times the Company's aggregate dividend and interest requirements for this period. "*

(8) If the issuer is a wholly-owned subsidiary of a credit supporter, has no operations or only minimal operations, that are independent of the credit supporter and is an entity that functions essentially as a special purpose vehicle, disclose the earnings coverage of the credit supporter. If this disclosure is included, the earnings coverage of the issuer may not be

material and, if not material, may be omitted. If the issuer is a wholly-owned subsidiary of the credit supporter but has more than minimal operations that are independent of the credit supporter, or if the issuer is not a wholly-owned subsidiary of the credit supporter, the earnings coverage of both the credit supporter and the issuer shall be disclosed.

(9) If the earnings coverage is less than one-to-one, disclose this fact in bold-face on the cover page of the prospectus. While the actual coverage ratio should not be disclosed in these circumstances, the dollar amount of the coverage deficiency (i.e., the dollar amount of earnings required to attain a ratio of one-to-one) should be disclosed in the body of the prospectus.

(10) Other earnings coverage calculations may be included as supplementary disclosure to the required earnings coverage calculations outlined above as long as their derivation is disclosed and they are not given greater prominence than the required earnings coverage calculations.

(2) For purposes of this item, "support agreement" includes an agreement to provide assistance in the maintenance or servicing of any indebtedness and an agreement to provide compensation for the purpose of maintaining or servicing any indebtedness of the borrower.

If a minimum amount of funds is required under the issuer and the securities are to be distributed on a best efforts basis, state the minimum amount required to be raised and the maximum that could be raised. Also indicate that the distribution will not continue for a period of more than 90 days after the date of the receipt for the prospectus if subscriptions representing the minimum amount of funds are not obtained within that period, unless each of the persons or companies who subscribed within that period has consented to the continuation. State that during the 90 day period funds received from subscriptions will be held by a depository who is a registrant, bank or trust company and that if the minimum amount of funds is not raised the funds will be returned to the subscribers unless the subscribers have otherwise instructed the depository.
